Все они абсолютно безопасны, так как проверены на вирусы и на работоспособность. Не забудьте поставить вашу оценку, это поможет нам узнать ваши предпочтения. In the past, we had horses, but there were 1,000,000 trains and cars to gradually get to travel. Throughout the development time, there are no facilities to help people fly in the air. That car is the latest human thing ever, but this is the most modern thing ever, it's the plane – the idea that allows people to fly. Although it is a new car, it has quickly gained popularity many people and is considered one of the safest vehicles. This has made a lot of people want to be pilots to control the planes themselves. But among the millions of dreamers, only a few are chosen to realize their dreams. But if users come to the extreme landing game Pro – all dreams come true. In the free version, the game has achieved a lot of success, but in this upgraded version, everything will be better. The realistic control mechanism of this game is a game about flight simulator, so what the player controls are airplanes. As many people know, to learn how to fly a plane, the player must go through a long process. If to get a driver's license, players only need a few months to study, practice and learn how to fly a plane; It takes years. This game has successfully brought the in-game plane control mechanism to the players to experience. Although it has been simplified, players still need to spend a lot of time getting used to it. But just trying to practice, the player will quickly take over all that He has become a skilled pilot. Detailed instructions as mentioned before, this game is difficult to control and master the plane. If the game has just begun, the game has given the game the task for the player. It can make players feel confused and complicated. So the game gave a tutorial stage so players can get used to what the game is. At this stage, the player will be given specific instructions on what to do to control and practice the aircraft. Through this basic training, players will quickly learn how to manage airplanes in the game. Performing tasks assigned to the game will give players a lot of different challenges and tasks for players to perform. Completing these tasks is a way for players to earn a lot of money to do other things. The player's mission is also clear. Most of them transport passengers or goods to the desired location to complete it. There are many different places for players to go, and far from rising to get money from playing, the player receives. The game will bring players 36 different missions with many destinations around the world for players to explore. Ensuring customer safety is essential in the game is to ensure the safety and satisfaction of other passengers so that they appreciate the players. During the flight, the most dangerous time in the game is when the player lands at the airport. If the player carefully reduces the speed, the player is very likely to cause an accident, so you still need to control your speed on the ground safely. Department of Defense information? - Unlocked all levels - unlocked all store items - unlocked all level tests - advertising is disabled you are now ready to download Extreme Landings Pro for free. Here are some notes: please check our installation guide. To check the CPU and GPU of an Android device, please use the CPU-Z Extreme Landing Pro app - a good opportunity to experience a lot of unusual emotions and participate in a breathtaking test. Now fans of incredible sensations will not strain their imagination to get a real maximum: bright and high-quality simulation will be able to provide the right environment. There is no story, the game will give an unreal sense of true freedom, and will feel completely full of life and believe in itself. Fortitude, agility, courage, awareness and skill will be the main factors for victorious success: players will have to overcome the toughest tests to prove their superiority. You have to control a small plane in very difficult circumstances. Here it is necessary to perform a variety of missions, engage in road planning and repair your winged birds. Many different maps, the most famous airports from all over the world, you can record flights to identify errors and continue to eliminate malfunctions - all these interesting actions will give you a full version of the game. The application software contains an aviation data device, several degrees of malfunctions, which can achieve the professionalism of aerobatics perfect, as the weather and time of day constantly change.
